

THE 2019

# Pearcey Oration

The Pearcey Oration is presented each year by an eminent thinker reflecting on critical contemporary issues impacting our nation that are driven by the introduction of advanced technologies into our society.

**In 2019, the Pearcey Oration will be given by Roger Taylor, Chair of the UK Centre for Data Ethics and Innovation.**

The 2019 Victorian State Pearcey award presentation and the 2019 Pearcey Oration will be held at a sit-down dinner event on the evening of Tuesday 27th August, 2019 at the Woodward Centre, Melbourne Law School.

The 2019 Pearcey Oration will explore the key challenges facing our society as we become increasingly reliant upon artificial intelligence and as our control over data evolves. As Roger Taylor will argue, there is a critical need for a rebalancing of control over data and information towards citizens and civil society. The event presents a unique opportunity to hear from a leading thinker in the global data ethics space.

2019 also marks a milestone year for the Pearcey Foundation, as it celebrates the centenary of Dr Trevor Pearcey's birth and the 70th anniversary of the creation of CSIRAC: Australia's first computer and the world's fourth.

We do hope you will consider attending the Pearcey Oration, which is once again part of the Digital Innovation Festival. The Oration dinner is generously supported by the Victorian Government.
